

ERRATUM

Open Access

Erratum to: Extensive multifocal branch duct IPMN of the pancreas after liver transplantation: is surgery justified?

Vittorio Branchi^{1,4}, Philipp Lingohr^{1,4}, Winfried A. Willinek^{3,4}, Edwin Bölke⁵, Alexander Semaan^{1,4}, Hui Zhou^{2,4}, Glen Kristiansen^{2,4}, Günter Klöppel⁶, Jörg C Kalff^{1,4}, Nico Schäfer^{1,4} and Hanno Matthaei^{1,4*}

Erratum

After publication of this work [1], we noted that we inadvertently failed to include the complete list of all co-authors. The full list of authors has now been updated. The Authors' contributions and Competing interests section modified accordingly. We are publishing this erratum to update the author list, which is as follows:

Vittorio Branchi, Philipp Lingohr, Winfried A Willinek, Edwin Bölke, Alexander Semaan, Hui Zhou, Glen Kristiansen, Günter Klöppel, Jörg C Kalff, Nico Schäfer and Hanno Matthaei

Competing interests

The authors declare that they have no competing interests.

Author's contributions

VB: Mainly conceived of the case report, participated in its design and coordination and helped significantly to draft the manuscript. PL: Participated in the clinical design of the manuscript and coordination and helped to draft the manuscript. WAW: Performed radiologic assessments and provided high quality imaging material for the publication, helped to draft the manuscript. EB: Participated in its design and coordination and significantly helped to draft the manuscript. AS: Participated in its design and coordination and significantly helped to draft the manuscript. HZ: Performed histopathologic review and provided pathologic imaging material for the publication including molecular studies, helped to draft the manuscript. GKristiansen: Performed histopathologic review and provided pathologic imaging material for the publication including molecular studies, helped to draft the manuscript. GKlöppel: Performed histopathologic review and provided pathologic imaging material for the publication, helped to draft the manuscript. JCK: Conceived of the case report, participated its design and coordination and helped to draft the manuscript. NS: Conceived and co-supervised the case report, participated in its design and coordination and helped to draft the manuscript. HM: Conceived and supervised the case report, participated in its design and coordination and helped to draft the manuscript. All authors read and approved the final manuscript.
